

Build the Enlightened Enterprise

An overview of the JBoss BRMS & JBoss DV integration demo

Powered by Red Hat JBoss Middleware:
JBoss BRMS
JBoss DV

Solution - Red Hat JBoss BRMS

Innovate faster, in a smarter way

A family of a lightweight, enterprise-grade products that are ideal for open hybrid cloud environments.

ACCELERATE

Develop applications faster, deploy across any environment, and elastically scale with fewer data bottlenecks.

INTEGRATE

Connect systems, applications, and data across your entire enterprise for greater efficiency and precision.

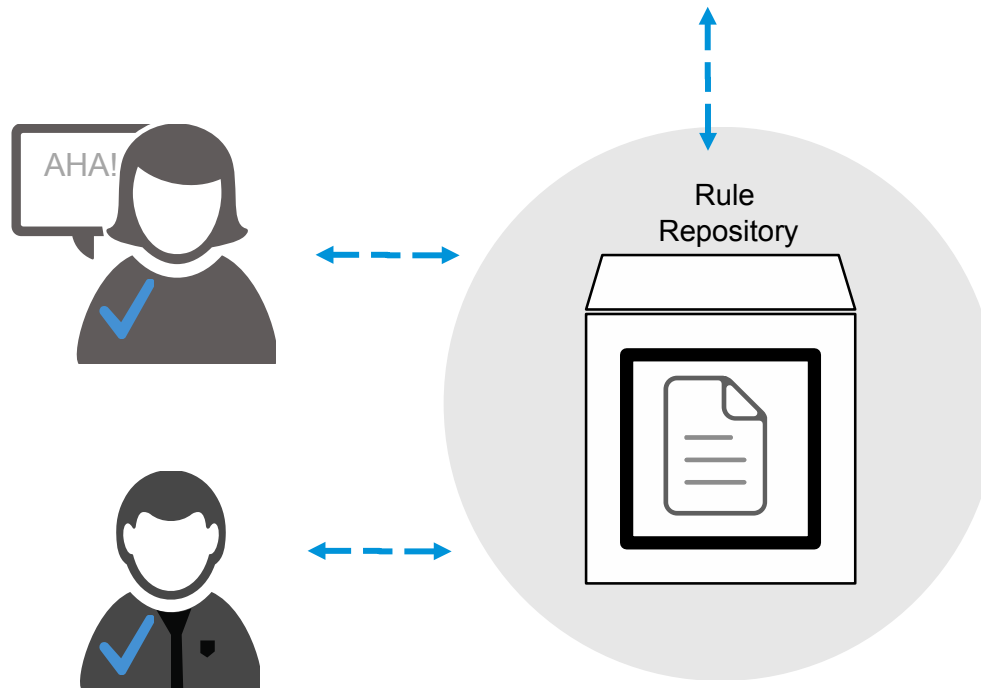

AUTOMATE

Automate business processes to react quickly to real-time events, minimize errors, and stay competitive.

Red Hat JBoss BRMS

The Business Rules Solution

1. Separate the business rules from the applications
2. Express rules in terms that the business can readily understand - **visibility**
3. Empower business and IT experts to collaborate - **agility**
4. Automate all the rules - **consistency**

BRMS - Technology Overview

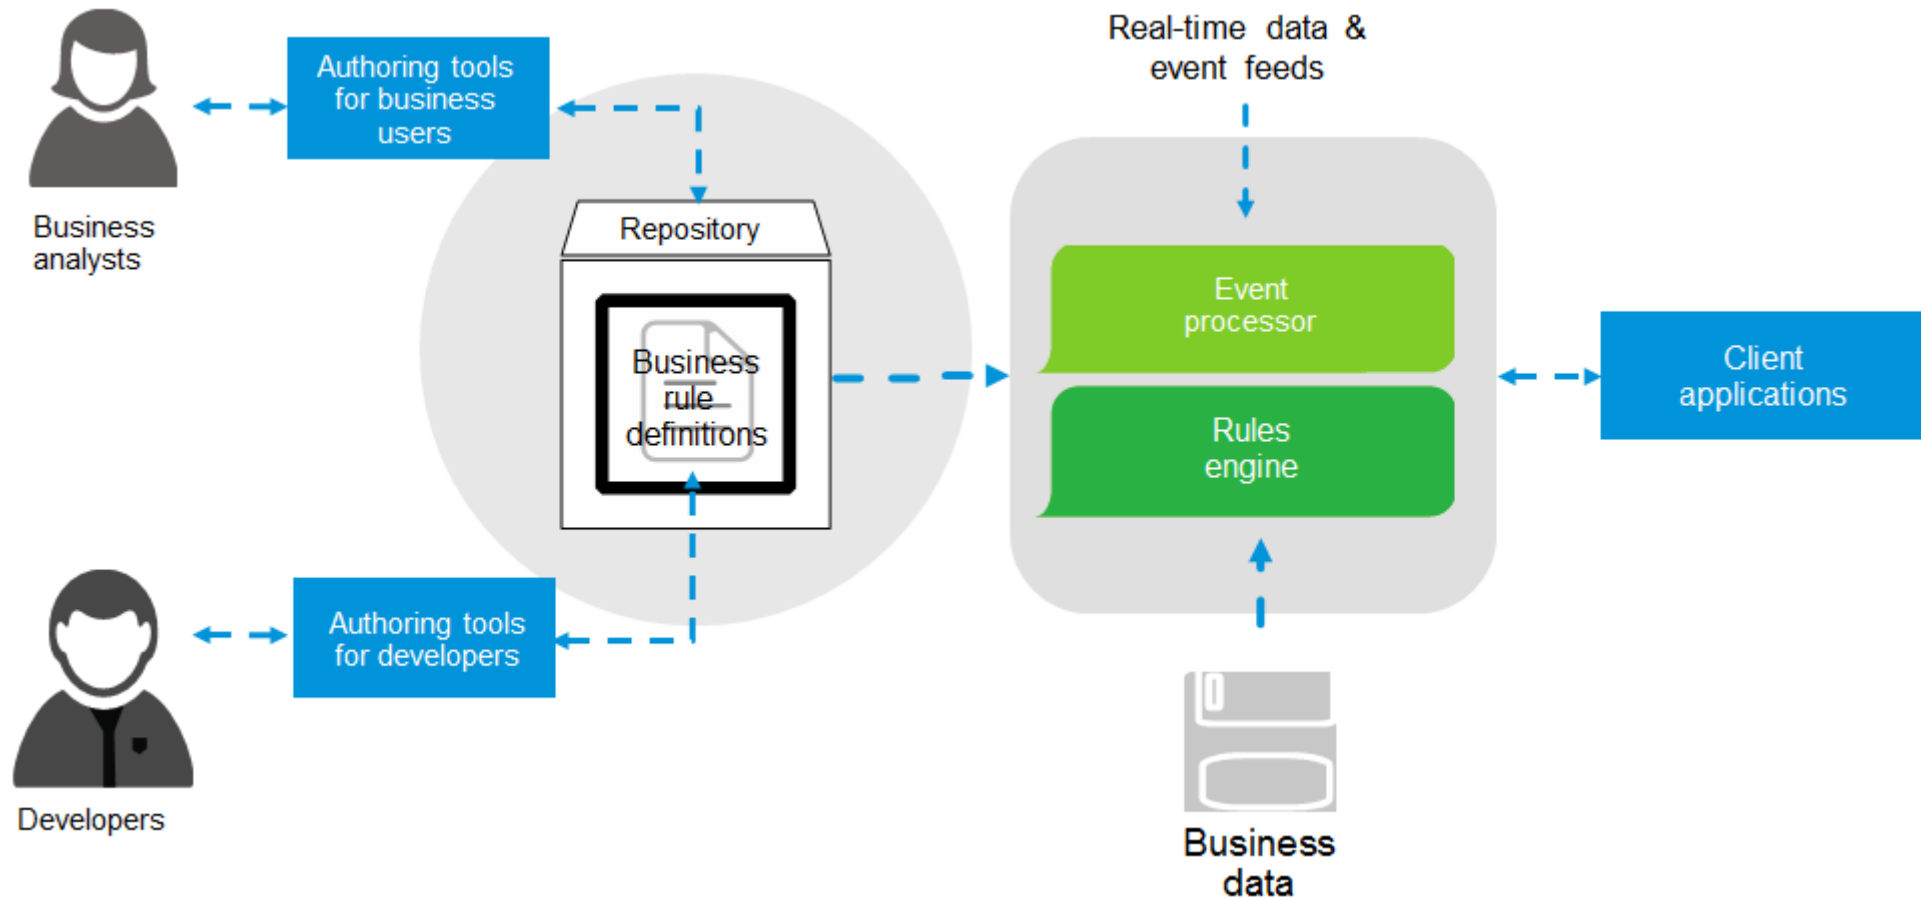

RED HAT® JBOSS® BRMS

A single, integrated, certified distribution for Business Rules Management and Complex Event Processing, based on open source community projects:

RED HAT JBOSS BRMS

Components

DV - Technology Overview

JBoss BRMS + DV
